Class:	**Reviewers Identified for this Award**
Description:	When an awards program is set up, the team needs to indicate the type of reviewer - committee or individual. If they select committee, then the lookup for a reviewer will reference committee records and only a single committee can be selected. The current committee members will be displayed on-screen for the team's convenience. If individual reviewers are used, the reviewer lookup will reference individual records (not committee

s or companies). The pool o
f reviewers for the awards
program must be identified
before they can be assigned
to individual nominees. Sc
ores are then captured per
reviewer (per individual or
for the committee as a whol
e). Recognition is not dete
rmine automatically based o
n scores; the awards team i
ndicates those records manu
ally.

Class: Recognition
Description: An award program can inclu

de multiple types of recogn
ition (e.g. 1st, 2nd and 3rd
 place). Recognition levels
and descriptions are define
d by the awards team. If th
e team determines that mor
e than one nominee deserve
s a particular award (e.g. t
here is a tie for 1st place)
, then additional records c
an be created as necessary,
 with distinct recognition l
evel codes (e.g. FIRST_PLAC
E and FIRST_PLACE_2). When
 a decision has been made,
the award winner(s) are ide
ntified in this table. This
can be done at any time, re
gardless of nominations; ho
wever, if the awards progra
m has been flagged as 'Requ
ires Nomination', then the
pool of available winners is
 limited to customers that
have received nominations f
or this award.
